EDUCATION

University of North Carolina at Chapel Hill

B.S. in Computer Science and Economics, Minor in Data Science

Aug 2022 – May 2026

Chapel Hill, NC

- GPA: 3.78/4.0. Honors: Dean's List (every semester). Credentials: Quantitative Financial Economics.
- Relevant coursework: Data Science, Business Analytics, Database Management (SQL), Econometrics, Corporate Finance.

WORK EXPERIENCE

Research Assistant

UNC Kenan-Flagler Business School

Jan 2025 – Present

Remote, US

- Developed a multiprocessing parallel computing ETL pipeline for large-scale 200 GB+ record linkage and NLP entity resolution.
- Perform exploratory data analysis (EDA), tokenization, data preprocessing and integrate multiple data sources in Python pandas.
- Conduct time-series analysis and political leaning data modeling, producing documentation in Jupyter Notebooks and Markdown.

Data Analytics Intern

LPL Financial

Jun 2025 – Aug 2025

Fort Mill, SC

- Reported NPS and survey data analysis to identify improvement areas, satisfaction drivers, and inform strategic initiatives.
- Developed Streamlit and Power BI dashboards with KPIs and client segmentation for executives to prioritize product features.
- Applied and visualized topic modeling and summarization in Python and R to turn textual data into actionable business insights.

Undergraduate Researcher

UNC Department of Economics

May 2024 – Sep 2024

Chapel Hill, NC

- Quantitative Research: modeling and forecasting market risk with high-frequency realized volatility and textual data analytics.
- Achieved 25% accuracy increase with a more robust model including NLP methodologies and FinBERT LLM to quantify sentiment.
- Data mining: scraped and analyzed over 500,000 headlines and 50,000 full-text articles from WSJ, The Economist, and others.

LEADERSHIP AND COMMUNITY INVOLVEMENT

Director Of Finance

HackNC

Oct 2023 – Aug 2025

Chapel Hill, NC

- Increased revenue by 30% and reduced outreach time by 60% through automation and streamlined email campaigns.
- Budgeted a \$40,000 event with 500+ participants. Managed a committee of 5 people and secured the funding for the event.

DS&A Teaching Assistant

UNC Department of Computer Science

Jan 2024 – Dec 2024

Chapel Hill, NC

- Communicated challenging data structures and analysis concepts to 400+ students. Debugged errors in students' code.
- Conducted office hours and led review session presentations to improve student understanding and assisted in grading.

Client Engineering & Technical Sales

IBM

Jun 2024 – Jul 2024

Remote, US

- Tailored a customer-focused virtual assistant suited for NLP tasks like summarization, sentiment analysis, and entity retrieval.
- Presented demos and MVPs of scalable LLM and AI solutions to stakeholders, emphasizing business impact and innovation.

PROJECTS

Airbnb Daily Price Prediction

Deep Learning Project

Feb 2024

Machine Learning

- Fine-tuned XGBoost regression and a TensorFlow neural network to predict daily listing prices using tabular and textual features.
- Engineered features from property descriptions, used clustering algorithms, and created interactive data visualizations.

SKILLS, CERTIFICATIONS AND INTERESTS

- Skills: Python, SQL, R, Power BI, Tableau, Git, Java, C, Linux, Cloud Computing, Natural Language Processing.
- Certificates: Intermediate SQL for Data Scientists; SQL: Data Reporting and Analysis; Bloomberg Market Concepts.
- Interests: herbal tea, applied economics, and advanced analytics. Former varsity eSports player at UNC.
